

## **Thai students come to study and exchange at Biotechnology Research and Development Institute (April 6 - April 16, 2019)**

In the framework of collaboration between Can Tho University (CTU) and Khon Kaen University (KKU), Thailand, 6 Thai students from Faculty of Technology, KKU had the short exchange visit at Biotechnology Research & Development Institute (BiRDI), CTU from April 6<sup>th</sup> to 16<sup>th</sup>, 2019. In this trip, Thai students had opportunities to visit, to study and to exchange culture and languages with Vietnamese students in CTU. Under the instruction and guidance of CTU lecturers and staff, Thai students attended some special seminars and had basic experimental lab work. Additionally, Thai students also learned experience through many interesting cultural activities about traditional food, places, languages,... These exchange programs could help students from 2 Universities learning more experience during their study and contribute somehow to the on-going collaboration between Faculty of Technology, KKU and Biotechnology R & D Institute, CTU as well as between KKU and CTU.
