☎ 0918812287

Research Interest

- Phylogenetics

Lecturing courses

- Molecular Biology
- Bioinformatics

Typical Publications

1. Molecular phylogenetic relationships and implications for the circumscription of *Colchicaceae* (*Liliales*). 2013. Botanical Journal of the Linnean Society
2. Genetic Diversity of *Catharanthus roseus* Species Based on DNA Barcodes. 2021. International Journal of Agriculture and Biological Sciences
3. The complete chloroplast genome of *Mimosa pigra* L. (*Fabaceae*), a notorious invasive plant. 2022. Mitochondrial DNA part B
4. Probiotic potential of lactic acid bacteria isolated from Vietnamese sour-fermented fish product. 2022. Malaysian Journal of Microbiology
